ACHIEVEMENTS

3rd Place Kreativesia IT Software Category　　　　　　　　　　　August 2023

- Achieving 3rd place in the Kreativesia competition organized by Youth, Sports, and Tourism Department of the provincial government. Developed an interactive virtual tour website to showcase the rectorate building at Mulawarman University.

SOFTWARE PROJECTS

Running Event Website | Active Festival Samarinda

- Over a thousand registration and hundreds access at the same time without making the website server down.
- Doing all the backend and several page for front end, have various feature like: QR Code feature, admin panel, form registration, payment gateway.
- Do the hosting part.

Islamic Boarding School Website | Al Mazaya

- Doing UI UX design, had some research like create the information architecture, user flow, wireframe, and high-fidelity design.
- In the UX research process we get insight about the user where mostly don't really understand technology, because of that we manage to design registration flow as simple as possible.
- Make the project management schedule for team.

News Media Website | Kaltimfolks

- Doing the front-end development and debugging, help the server configuration.

Landing Page and Company Profile | Sirkel, Graviton Softworks, Davila

- Doing the UI UX and development.
